

KANTO CHEMICAL CO., INC. / ENVIRONMENTAL POLICY

As a chemical manufacturer, we make our utmost efforts to be a company that can contribute to society as well as customers with the awareness that we are consuming huge amounts of chemical substances and energy and through reducing the load on the environment arising from our production activities.

[SLOGAN]

Being "a chemical company that can coexist with the earth"

We do what we can now one by one!!

[Activity Policies]

- (1) According to the nature of the product scale and effect on the environment, we will implement proper environmental activities. We have placed this as one of our most important tasks.
- (2) We will strive to keep improving our environmental management systems and prevention of environmental pollution.
- (3) We will build a sustainable environment that is in harmony with society by conforming to public laws and regulations and other requirements.
- (4) We will proceed with improving environmental quality by quantifying environmental objectives and targets as much as possible to complete our improvement plan. We will maintain proper environmental activities by reviewing their progress periodically.
- (5) In order to work together to enhance our environmental awareness, we will instill the above environmental policies in all employees and relevant workers with posting notice, etc.
