## Certificate of Accreditation

International Accreditation Japan (IAJapan) hereby accredits the following conformity assessment body as a calibration laboratory of Japan Calibration Service System.

Accreditation Identification: JCSS 0014 Calibration

Name of Conformity Assessment Body: Soka Factory, Kanto Chemical Co., Inc.

Name of Legal Entity: Kanto Chemical Co., Inc.

Location of Conformity Assessment Body: 1-7-1 Inari, Soka-shi, Saitama 340-0003, JAPAN

Scope of Accreditation: Concentration (as the following pages)

Accreditation Requirement: ISO/IEC 17025:2017\*

\* The relevant accreditation requirements described in the Accreditation Scheme Document for JCSS are also applied.

Effective Date of Accreditation: 2023-10-25

Expiry Date of Accreditation: 2027-10-24

Date of Initial Accreditation: 2005-12-26

SAITO Kazunori

Chief Executive, International Accreditation Japan (IAJapan)

National Institute of Technology and Evaluation

- 
- International Accreditation Japan (IAJapan) is a laboratory accreditation body which has signed MRAs of ILAC (International Laboratory Accreditation Cooperation) and APAC (Asia Pacific Accreditation Cooperation).
  - MRA requirements are, in addition to relevant international standards and guides, requirements for participation in proficiency testing programs, surveillance and reassessment, and the policy for the traceability of measurement for MRA purpose.
  - This laboratory fulfills ISO/IEC 17025:2017 General requirements for the competence of testing and calibration laboratories. This accreditation means this laboratory meets both the technical competence requirements and management system requirements that are necessary for it to consistently deliver technically valid test results and calibrations (refer to joint ISO-ILAC-IAF Communiqué dated April 2017).
  - The latest accreditation information is publicly available on IAJapan Website as an accreditation certificate.

## Certificate of Accreditation

International Accreditation Japan (IAJapan) hereby accredits the following conformity assessment body as a Reference Material Producer of Japan Calibration Service System.

Accreditation Identification: JCSS 0014 RMP

Name of Conformity Assessment Body: Soka Factory, Kanto Chemical Co., Inc.

Name of Legal Entity: Kanto Chemical Co., Inc.

Location of Conformity Assessment Body: 1-7-1 Inari, Soka-shi, Saitama 340-0003, JAPAN

Scope of Accreditation: Concentration (as the following pages)

Accreditation Requirement: ISO 17034:2016\*

\* The relevant accreditation requirements described in the Accreditation Scheme Document for JCSS-RMP are also applied.

Effective Date of Accreditation: 2023-10-25

Expiry Date of Accreditation: 2027-10-24

Date of Initial Accreditation: 2008-11-06

SAITO Kazunori

Chief Executive, International Accreditation Japan (IAJapan)

National Institute of Technology and Evaluation

- International Accreditation Japan (IAJapan) is a laboratory accreditation body which has signed MRAs of ILAC (International Laboratory Accreditation Cooperation) and APAC (Asia Pacific Accreditation Cooperation).

- MRA requirements are, in addition to relevant international standards and guides, requirements for participation in proficiency testing programs, surveillance and reassessment, and the policy for the traceability of measurement for MRA purpose.

- This accreditation demonstrates technical competence for a defined scope and the operation of a laboratory quality management system in accordance with the recognized International Standard ISO 17034:2016.

- The latest accreditation information is publicly available on IAJapan Website as an accreditation certificate.

## Certificate

Reference material

Magnesium Standard Solution 2(Mg 1000)

Cat.No.25840-3B

Manufacturer:

Kanto Chemical Co., Inc. Soka factory

Lot number:

303K9517

Intended use:

For chemical analysis, mainly ion chromatographic analysis.

Usage:

Overturn the bottle gently a few times in order to mix the contents well before opening the bottle.

Cap the bottle tightly, immediately after use.

Storage condition:

Avoid sunlight and store at an ordinary temperature(5 °C~35 °C).

Calibration method:

Titration method.

Calibration location:

Kanto Chemical Co., Inc. Soka factory

Calibration result\*:

992 mg/L

Relative expanded uncertainty\*\* 0.5 %

(Coverage factor  $k=2$ , Level of confidence approximately 95 %)

Remarks

\* Calibration result is the concentration at 20 °C.

\*\* Relative expanded uncertainty includes the uncertainty of the storage stability within the warranty period.

Calibration date:

March 11, 2021

Expiry date:

The end of March, 2023

We hereby certify that the calibration result is the above value.

Date of issue: March 23, 2021

The Issuing Authority

Inspection manager : Masaaki Tsunoda

Kanto Chemical Co., Inc. Soka factory

7-1, Inari 1-chome, Soka-city, Saitama, Japan

This certificate is based on article 144 of the Measurement Law and indicates the result of calibration in accordance with measurement standards traceable to Primary Measurement Standards (National Standards) which realizes the physical units of measurement according to the International System of Units (SI). The accreditation symbol is attestation of which the result of calibration is traceable to Primary Measurement Standards (National Standards).

The certificate shall not be reproduced except in full, without the written approval of the issuing laboratory.

We have the reference material producer/calibration laboratory who issued this certificate conforms to ISO/IEC 17025:2017 and ISO 17034:2016. This certificate shows the result of calibration to reference material which meets the demand of certified reference material (CRM) described in JIS Q 17034 (ISO 17034:2016). This certificate was issued by the calibration laboratory and reference material producer accredited by IAJapan who is a signatory to the Mutual Recognition Arrangement (MRA) of International Laboratory Accreditation Cooperation (ILAC) and Asia Pacific Accreditation Cooperation (APAC). This (These) calibration result(s) may be accepted internationally through ILAC and/or APAC MRA.

Intended use, usage, storage conditions, and expiry date are described based on JIS Q 0031 (ISO Guide 31:2015), and they are not required in article 144 of the Measurement Law.

## Certificate of Accreditation

International Accreditation Japan (IAJapan) hereby accredits the following conformity assessment body as a calibration laboratory of Japan Calibration Service System.

Accreditation Identification: JCSS 0015 Calibration

Name of Conformity Assessment Body: Isehara Factory, Kanto Chemical Co., Inc.

Name of Legal Entity: Kanto Chemical Co., Inc.

Location of Conformity Assessment Body: 21 Suzukawa, Isehara-shi, Kanagawa 259-1146, JAPAN

Scope of Accreditation: Concentration(as the following pages)

Accreditation Requirement: ISO/IEC 17025:2017\*

\* The relevant accreditation requirements described in the Accreditation Scheme Document for JCSS are also applied.

Effective Date of Accreditation: 2023-10-25

Expiry Date of Accreditation: 2027-10-24

Date of Initial Accreditation: 2005-12-26

SAITO Kazunori

Chief Executive, International Accreditation Japan (IAJapan)

National Institute of Technology and Evaluation

- International Accreditation Japan (IAJapan) is a laboratory accreditation body which has signed MRAs of ILAC (International Laboratory Accreditation Cooperation) and APAC (Asia Pacific Accreditation Cooperation).

- MRA requirements are, in addition to relevant international standards and guides, requirements for participation in proficiency testing programs, surveillance and reassessment, and the policy for the traceability of measurement for MRA purpose.

- This laboratory fulfills ISO/IEC 17025:2017 General requirements for the competence of testing and calibration laboratories. This accreditation means this laboratory meets both the technical competence requirements and management system requirements that are necessary for it to consistently deliver technically valid test results and calibrations (refer to joint ISO-ILAC-IAF Communiqué dated April 2017).

- The latest accreditation information is publicly available on IAJapan Website as an accreditation certificate.

## Certificate of Accreditation

International Accreditation Japan (IAJapan) hereby accredits the following conformity assessment body as a Reference Material Producer of Japan Calibration Service System.

Accreditation Identification: JCSS 0015 RMP

Name of Conformity Assessment Body: Isehara Factory, Kanto Chemical Co., Inc.

Name of Legal Entity: Kanto Chemical Co., Inc.

Location of Conformity Assessment Body: 21 Suzukawa, Isehara-shi, Kanagawa 259-1146, JAPAN

Scope of Accreditation: Concentration(as the following pages)

Accreditation Requirement: ISO 17034:2016\*

\* The relevant accreditation requirements described in the Accreditation Scheme Document for JCSS-RMP are also applied.

Effective Date of Accreditation: 2023-10-25

Expiry Date of Accreditation: 2027-10-24

Date of Initial Accreditation: 2009-01-29

SAITO Kazunori

Chief Executive, International Accreditation Japan (IAJapan)

National Institute of Technology and Evaluation

- International Accreditation Japan (IAJapan) is a laboratory accreditation body which has signed MRAs of ILAC (International Laboratory Accreditation Cooperation) and APAC (Asia Pacific Accreditation Cooperation).

- MRA requirements are, in addition to relevant international standards and guides, requirements for participation in proficiency testing programs, surveillance and reassessment, and the policy for the traceability of measurement for MRA purpose.

- This accreditation demonstrates technical competence for a defined scope and the operation of a laboratory quality management system in accordance with the recognized International Standard ISO 17034:2016.

- The latest accreditation information is publicly available on IAJapan Website as an accreditation certificate.

## &lt; Calibration Laboratory &gt;

General Field of Calibration: ConcentrationDate of Initial Accreditation of the Field: 2005-12-26Laboratory's permanent facility/On-site Calibration: Laboratory's permanent facilityCalibration and Measurement Capabilities

Calibration Procedures# and Type of Instruments/Materials to be calibrated		Range	Expanded Uncertainty (Level of Confidence Approximately 95 %)
pH Standard Solutions	Oxalate pH standard solution	1.679	0.005
	Phthalate pH standard solution	4.008	0.005
	Phosphate equimolal pH standard solution	6.865	0.005
	Phosphate pH standard solution	7.413	0.006
	Tetraborate pH standard solution	9.180	0.005
	Carbonate pH standard solution	10.012	0.006

#All Calibration Procedures are in-house procedures developed by this laboratory.

## &lt; Reference Material Producer &gt;

Category: ConcentrationDate of Initial Accreditation of the Field: 2009-01-29Type: Certified Reference MaterialThe Approach Used to Assign a Property Value: Measurement by a Single Method in a Single Laboratory (ISO 17034:2016 7.12.3 NOTE 1 d))

Sub-category and Property		Range	Expanded Uncertainty (Level of Confidence Approximately 95 %)	Characterization Techniques
pH Standard Solutions	Oxalate pH standard solution	1.679	0.005	Glass electrode method
	Phthalate pH standard solution	4.008	0.005	
	Phosphate equimolal pH standard solution	6.865	0.005	
	Phosphate pH standard solution	7.413	0.007	
	Tetraborate pH standard solution	9.180	0.008	
	Carbonate pH standard solution	10.012	0.012

## Certificate

### Reference Material

Phthalate pH standard solution

Cat.No. 32798-08

Manufacturer:

Kanto Chemical Co., Inc. Isehara factory.

Lot number:

303N1829

Intended use:

For calibration of the pH meter.

Usage:

Overturn the bottle gently a few times in order to mix the contents well before opening the bottle.

Rinse a clean vessel with the standard solution and then pour the necessary quantity of the solution into the vessel.

Cap the bottle tightly, immediately after use.

Storage condition:

Don't Freeze. Avoid sunlight and store at below 25 °C.

Calibration method:

Calibrated by glass electrode method.

Calibration location:

Kanto Chemical Co., Inc. Isehara factory.

Calibration condition:

25 °C ± 0.1 °C

Calibration result and expanded uncertainty:

pH 4.01 ± 0.015

Coverage factor  $k=2$ , Level of Confidence Approximately 95 %.

Remarks

Expanded uncertainty includes the uncertainty of the storage stability within the warranty period.

Calibration date:

March 23, 2021

Expiry date:

The end of February, 2022

We hereby certify that the calibration result is the above value.

Date of issue : March 23, 2021

The Issuing Authority

Factory manager : Shuki KAWAMOTO

Kanto Chemical Co., Inc. Isehara factory  
21, Suzukawa Isehara-shi, Kanagawa, Japan

This certificate is based on article 144 of the Measurement Law and indicates the result of calibration in accordance with measurement standards traceable to Primary Measurement Standards (National Standards) which realizes the physical units of measurement according to the International System of Units (SI). The accreditation symbol is attestation of which the result of calibration is traceable to Primary Measurement Standards (National Standards).

The certificate shall not be reproduced except in full, without the written approval of the issuing laboratory.

We have the reference material producer/calibration laboratory who issued this certificate conforms to ISO/IEC 17025:2017 and ISO 17034:2016. This certificate shows the result of calibration to reference material which meets the demand of certified reference material (CRM) described in JIS Q 17034 (ISO 17034:2016) This certificate was issued by the calibration laboratory and reference material producer accredited by IA Japan who is a signatory to the Mutual Recognition Arrangement (MRA) of International Laboratory Accreditation Cooperation (ILAC) and Asia Pacific Accreditation Cooperation (APAC). This (These) calibration result(s) may be accepted internationally through ILAC and/or APAC MRA.

Intended use, usage, storage conditions, and expiry date are described based on JIS Q 0031 (ISO Guide 31:2015), and they are not required in article 144 of the Measurement Law.
